

SOLID CHOICES

Our collection of exclusive, **solid broadlooms** has a powerful multiplying effect: the fourteen colors combine with four textures to create a universe of looks that's much greater than the sum of its parts.

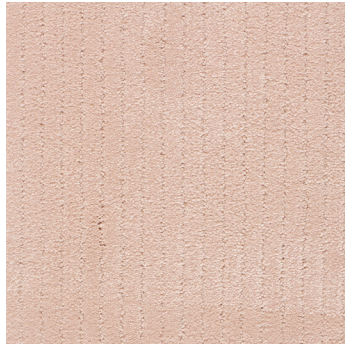

Done in silky nylon, the palette of saturated jewel tones, rich neutrals and sunwashed shades add depth to any room, while the quiet textures build visual interest and can be pieced together to resemble a handmade custom rug.

From stripes to geometric shapes, borders and insets, these rugs are a fraction of the cost of their hand-tufted counterparts with a much quicker turnaround.

**Consider it the perfect
formula for a winning mix.**
